## EDUCATION

**New York University** Expected May 2027
Master of Professional Studies in Interactive Telecommunications (ITP)
**Selected Coursework:** Exhibition & Museum Experience Design, Digital Fabrication, Physical Computing, Real-Time 3D & Interactive Environments,Creative Coding

**Capital Normal University** 09/2019 - 06/2023
B. A. Digital Media Arts
Minor in English Language & Culture
**GPA:** 3.61/4.0 (major)

## DESIGN PROJECTS

**Manifesto**
Interactive Installation | Leap Motion, Processing

- Developed a gesture-controlled projection environment integrating motion tracking and sculptural elements.
- Independently executed full installation setup, including projection alignment and system calibration.
- https://www.dropbox.com/scl/fi/8qcfey2grdjvisrfcybpz/MANIFESTO.mov?rlkey=62gslzu8j9g91lg3fx85nwmob&dl=0

**Pediophobia**
Fabrication & Physical Computing Installation | Rhino, 3D Printing, Arduino

- Modeled and fabricated interactive doll structures integrating Arduino-controlled servo mechanisms.
- Used exposure therapy to help desensitize individuals with automatonophobia.
- https://www.dropbox.com/scl/fi/srwgbr0yt9qdvkj6bc4i0/PEDIOPHOBIA.mp4?rlkey=xi8z9ulvaqhmnliq43n8ku2bm&dl=0

**Easehome**
Mobile App & UX Design | Figma, Procreate, Photoshop, Illustrator

- Designed a mobile application to address information delays, lack of transparency, and moving challenges during urban relocation.
- Conducted user research and interviews to identify pain points and define user-centered solutions.
- Created interface designs, icons, and storyboards; developed interactive prototypes including property binding, information push, community communication, and relocation management features.

## INTERNSHIP & WORK EXPERIENCES

**NationSky** 06/2024 - 09/2024
**UI Designer**

- Designed UI for insurance-related applications across mobile, desktop, and professional platforms.
- Delivered high-quality visual design aligned with client requirements and technical constraints.
- Conducted product optimization analysis, significantly improving user experience.

**CCTV Pioneer Media & Entertainment Co., Ltd.** 06/2023 - 07/2023
**Design Intern**

- Assisted in designing 20+ animated characters, scenes, and visual effects across 3 major projects.
- Produced animations and effects using After Effects.
- Organized 60+ images, 20+ audio files, and 30+ video assets to streamline post-production workflows.

## SKILLS

- **Interaction & Programming:** Unity (C#) for game and interactive development, Arduino (sensors, servo motors, LED control), Processing / p5.js, Web Development (HTML, CSS, JavaScript), Data Visualization
- **Design & Creative:** UI/UX Design, Interaction Design, Exhibition & Immersive Installation Design, Digital Media Experience Design, Animation, Photography, Videography, Video Editing
- **3D & Fabrication:** Rhino, Blender, 3D Printing, Laser Cutting, Prototyping & Multi-material Fabrication, Projection Mapping, Motion Tracking, Leap Motion
- **Tools:** TouchDesigner, Figma, Adobe Photoshop, Illustrator, After Effects, Premiere Pro
- Fluent in Chinese and English ( IELST:7.0 )
